

Kansas State Association of Fire Chiefs

Invoice

Hurst/Moditech Crash recovery system: The Kansas State Association of Fire Chiefs is offering to its membership the opportunity to purchase this program for your department for \$125. If you were to buy this from Hurst yourself it would cost \$600. We will purchase the primary license which allows us to buy as many secondary licenses as we wish for a reduced rate. The only condition is that we purchase all of them at the same time. This requires us to pre-sell so we know how many to order. We will accept subscriptions until Jan. 31, 2012.
